SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The paper is well written. I suggest that in the title “under” be replaced by “in”. The title then should be: Modified Lee-Low-Pines Polaron in Spherical Quantum Dot in an Electric Field. Part I: Strong Coupling.</p> <p>Eqn.(2.1) is symbolic and all terms must remain symbolic.</p> <p>Numbering all equations allows for consistency and convenience in reading the paper.</p> <p>In (2.1), the third term should be replaced with something like H_{ep}, where it is written as (2.4). The last expressions in section 2 must be numbered.</p>	<p>Yes it is ok, so the title is now: Modified Lee-Low-Pines Polaron in Spherical Quantum Dot in an Electric Field. Part I: Strong Coupling.</p> <p>Yes well done now in the manuscript</p> <p>Yes it is ok now in the manuscript</p> <p>Yes it is ok now in the manuscript and then section 2 has now 6 equations</p>
Minor REVISION comments	<p>These consist of all highlights .</p> <p>Attention must be paid to the y-coordinate of the graphs</p> <p>At some points the English has not been very straightforward. I have assisted with sticky notes.</p> <p>Here also the authors should pay attention to the sticky notes attached.</p>	<p>All highlights corrections are corrected</p> <p>Thanks very much, all remarks has been taken in consideration</p>
