PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The article offers an interesting detailed in pest management and has features of a scientific study. Introduction is a bit short. Number of literature should be increased. Some new references can add. Methodology is good but need more detailed description. In general results of the study are enough results.	Adding more introductions will make the work clumsy. References within authors' reach were used. Thanks.
