SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	▪ Cross reference all of the citations in the text with the references in the reference section using this Link http://www.crossref.org/simpleTextQuery. ▪ Ensure that all references have corresponding citations within the text and vice versa. ▪ Double check the spelling of the author names and dates and make sure they are correct and consistent with the citations. ▪ Spell out all abbreviations in the text the first time they are mentioned in the text. ▪ Spell out all Journal titles in the reference section (be consistent with this). ▪ Translate any references (if applicable) into English ▪ Ensure that all figures and tables are cited within the text and that they are cited in consecutive order. ▪ Insert the name of the specific companies and the grade levels of these reagents and chemicals: Line 78. ▪ Put aqueous and ethanolic into bracket in front of extracts: Line 70. ▪ Replace 'find out' with 'ascertain'. Remember, this is a formal writing hence limit the use of phrasal verbs: Line 43.	Issues raised here were essentially taken care of. Thank you. In particular: aqueous and ethanolic were placed into bracket in front of extracts 'find out' was replaced with 'ascertain'
Minor REVISION comments	▪ Line 192-194: Restructure the statement and make it more clearer	The sentence was restructured. Thank you.

SDI Review Form 1.6

	▪ The statement in Lines 205-207 is incomplete, please check. ▪ Give a brief detail of your methodologies, Use Lines 118-123 as a guide for the sample extraction and nutritive content determination above. You need to insert your modification of (18) procedure for your work. Details of your methodology must be presented with your source of reference: Lines 100-110. ▪ Insert comma (,) to end the sentence: Line 50. ▪ Replace 'principles' with 'phytochemicals': Lines 33. 218 & 227. ▪ Use the surname of this taxonomist as appropriate reference: Line 83.	Lines 205-207 completed and corrected. Done Done Done
<u>Optional/General</u> comments
