PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This paper presented very interesting study on Algal-biomass production from Chlorella sp. using hot and cold water infusions of poultry droppings. The reviewer recommends the publication with the following revision. 1. There are many irregularities in English in this paper, so it should be revised seriously. 2. Please Provided a high resolution figures. 3. There are many typos error in this paper, so it should be revised seriously. 4. Discussion part is too weak, this should be revised 5. Conclusions must be comprehensive and not written like a report. 6. It's very important if you added some references of 2016-2017.	Whole paper has been re-checked for typos and corrected as pointed. Entire conclusion was re-written, and new references added as well. Thank you.
<u>Optional/General</u> comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
