Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	- It is not clear if all patients included in the study have sickle cell anemia (HbSS) or sickle cell disease.	The patients are patients with Sickle cell disease and it has been appropriately addressed in the revised manuscript
<u>Minor</u> REVISION comments	- Results are presented in "Materials and Methods" in the abstract; - The term "sickle cell anemia" is one of the key words, but the whole text and even the title talk about "sickle cell disease"; - RESULTS: data presented in tables 1 and 2 don't need to be described in the text; - What is "VOC patients"? The meaning is not in the text;	All correction are duly noted and appropriately revised.
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
