Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	- It is not clear if all patients included in the study have sickle cell anemia (HbSS) or sickle cell disease.	
<u>Minor</u> REVISION comments	- Results are presented in "Materials and Methods" in the abstract; - The term "sickle cell anemia" is one of the key words, but the whole text and even the title talk about "sickle cell disease"; - RESULTS: data presented in tables 1 and 2 don't need to be described in the text; - What is "VOC patients"? The meaning is not in the text;	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
