Editorial Comments:

Authors incorporated the first suggestion but I did not see n =? for my second suggestion. Perhaps they worded it somewhere.
Format the article according to the journal guidelines and also have the proper Table and Figure legends.

Author's Comments:

The second suggestion of the editor regarding the n= ?. The average number of noise generation has been given in table 5 as follows:

Locations	Time of Measurement			
	6:15 hr-12:00 hr (Average (dBA)	12:15 hr-18:00 hr Average (dBA)	18:15 hr-21:00 hr Average (dBA)	Average of Noise Level in Each Study Area
King's Market	93.33	94.98	89.89	92.73
Ijigbo Roundabout	96.04	89.65	98.08	94.59
NTA Road	85.71	75.10	79.64	80.15
Bisi Market	100.01	97.30	92.30	98.33
Falegan Area	81.75	86.78	85.71	84.74
Average of Noise Level in All the Study Areas between 6:15 hr-12:00 hr	**91.3**	**88.76**	**89.14**	**89.7**
	Maximum LAeq,T	**Minimum** LAeq,T	**Average** LAeq,T	**Total Noise Average**
	105.40 dBA	69.51 dBA	87.455 LAeq,T	**87.45 - 89.70 dB(A)**

The article has been format according to the journal guidelines including proper Table and Figure legends.

Note: I want to categorically appreciate the efforts of the editorial team for the wonderful academic toughness given to this paper. I really appreciate your academic and peer review excellence.
