**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>This paper deals with a major health problem: the use of illicit and licit drugs on adolescent and youth in Tanzania. It consists of a narrative review of the problem, which is now unfortunately globalized. The manuscript is very clear, and I believe that it is of interest for journal's readers.</b>	
<b><u>Minor</u></b> REVISION comments	I might suggest a few comments on a comparison of the problem with other countries, particularly with those from South America and the United States. Another question is the following: do the authors believe that the implementation of the narcotic laws of 2009 will be able to favourably impact on this health problem?	
<b><u>Optional/General</u></b> comments
