<ol style="list-style-type: none"> 1) Abstract: There is no need to partition Abstract into Aims, Study Design, Methodology etc. Except it is the requirement of the Journal. 2) There observable improvement in the revised copy. However, a number of typographical errors and minor inconsistencies need to be address. See some corrections made in Yellow and those to be deleted with a cancellation sign in red. 3) See page 5, the Author should be conscious of use of plurals against singulars. 4) Footnote references displayed on pages 6,7,10,11,12,13,14,15,18, 19, 21, 22, & 24 should be transferred to list of references. Note: Footnote references are not acceptable in Technical Writing Journal Articles. 5) Text referencing with <i>year-number system</i> instead of <i>name-number system</i> should be consistent. Numbers are displayed in bracket not as of superscript (as used in this documentation). 6) The source of Table 2 must be clearly indicated. 7) Figure 3 appears twice on pages 17 and 22. Also, in page 18 we have Figure 5 and page 20 we have Figure 7, and Figure 6 is missing. Apparently the Figure 3 on page 22 should become Figure 7. The ne Figure 7 (Bar graphs) is lacking in the key to access the different colours in the Bar graph. Always label Figures beneath and Tables on Top. 8) The list of references should conform to journal specification.
