SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>1- Introduction is very poor and has not any survey for the previous work; especially there are a lot of researches and publications in the same topics.</p> <p>2- Natural properties of GFRP in table 3 need verification and data sheet of product.</p> <p>3- Analytical model in sec. 6 ignore the actual behaviour of cracked slab sections and its RFT for that 3D finite element model is mandatory required for verification and comparison.</p>	
<u>Minor</u> REVISION comments	<p>1- English language and grammar need to review for more improvement.</p>	
<u>Optional/General</u> comments
