SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The abstract was not well written and not justified. Even the main body requires same correction. 2. Aim of the study in the abstract should be revisited and remove any unnecessary story and go to your points. 3. First paragraph of Introduction – How possible could you obtain that information without any reference(s)? You have to supply literatures consulted. 4. Remaining parts of the Introduction – The citations are too scanty and old. 5. Why did you underline some parts of your Materials and Methods after bolding? You need to adhere to the Journal's instructions, please. 6. Section 3 under methodology is not in order. How could you have that and then 3.3 as Results and Discussion? There is no heading as "The observations made...." in journal formats. <p>Tables should look standard without grid lines crossing vertically and horizontally except the first two top and last one bottom horizontal ilnes.</p>	<p>Red sanders Propagated mainly through seeds; problem in seed germination because of hard seed Coat so it's limits seedling production.current study was carried out to find out best germinate on enhancement treatment.</p> <p>Correction carried out in abstract and aim of the study also.</p> <p>Correction carried out in first paragraph of introduction and also incorporated the reference.</p> <p>Whole introduction part again corrected</p> <p>Correction carried out and removed the underline</p> <p>Correction carried out as per order .</p> <p>Sir without grid line ,values will confuse for seeing . With grid line it will help full to easy understand and clear.</p>
