

Editor's comments:

The Manuscript number Ms_AIR_34246 has two significant lacks:

1. Reviewers have written excellent comments, but the author(s) did not accept all of them.
2. The Manuscript is not written by the Guideline for Authors (<http://www.sciencedomain.org/page/general-guideline-for-authors>).

Authors' feedback:

Respected sir I'm followed all the reviewers comments and corrected and also followed author's guidelines
