FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>There al lot of grammar and wording mistakes needed to be corrected again. I would suggest that an editor address the remaining concerns shown in track change notes before publication.</p> <p>It's a good study but some of the wording was really awkward. All places that need further correction should be clear on this copy.</p>	<p>Most of the grammatical and wording mistakes have been corrected.</p> <p>Instead of using the word "Backward", I have tried to use the synonym of the same wherever possible. Word "Backwardness" cannot be removed from checklist now. If you find any other word awkward word it can be modified accordingly.</p>
