

Following the review of Research Article titled “STUDY ON OPTIMUM SIZE AND SHAPE OF BLOCKS IN UNIFORMITY TRIAL OF SUNFLOWER (*Helianthus annuus*) CROP”. Since the requested changes are major, I recommend that it should be revised taking into account the changes requested as follows;

- Under materials and methods, how many crops per unit plot, please give details.
- Kindly give detail on your materials and methods.
- Tables 1, 2, 3, 4, 6 and 7 should be in three lines’ tables. For example;

Table 1: Coefficient of variation of various plot sizes for different block arrangements

Plot size (in units)	4-plot block	8-plot block	12-plot block	16-plot block
1	14.48	11.64	10.84	7.23
2	11.64	7.23	8.82	5.96
3	10.84	8.82	9.53	5.25
4	7.23	5.96	5.25	5.10
6	8.82	5.25	7.82	4.90
8	5.96	5.10	4.90	-
12	5.25	4.90	4.31	3.71
16	5.10	-	3.71	-
18	7.48	4.31	-	3.82
