

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_31791
Title of the Manuscript:	On general mathematical constraints applying to the kinetics of species discovery during progressive sampling and to the resulting expression of the Species Accumulation Curve
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>Manuscript of great importance as it approaches the "species accumulation curve, a method that explains the rate of increase in the number of species recorded during the progressive sampling of a set of species.</p> <p>I suggest changing the title. Thus, highlighting the great contribution of the manuscript.</p> <p>Here at the end of the Introduction it will be necessary to make clear the objectives of the manuscript.</p>	
<u>Minor</u> REVISION comments	<p>In SDI General Editorial Policy: Materials & methods (Kindly comment on the suitability and technical standards of the methods. Sufficient details of the methods/process should be provided so that another researcher is able to reproduce the experiments described).</p> <p>NOTE: As the manuscript does not have material and methods, in the introduction it should have a paragraph explaining the methodology.</p>	
<u>Optional/General</u> comments	Are all the references cited relevant and adequate? Are there any other suitable current references authors need to cite?
