SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none"> 1. The abstract was not well written and not justified. Even the main body requires same correction. 2. Aim of the study in the abstract should be revisited and remove any unnecessary story and go to your points. 3. First paragraph of Introduction – How possible could you obtain that information without any reference(s)? You have to supply literatures consulted. 4. Remaining parts of the Introduction – The citations are too scanty and old. 5. Why did you underline some parts of your Materials and Methods after bolding? You need to adhere to the Journal's instructions, please. 6. Section 3 under methodology is not in order. How could you have that and then 3.3 as Results and Discussion? There is no heading as "The observations made...." in journal formats. <p>Tables should look standard without grid lines crossing vertically and horizontally except the first two top and last one bottom horizontal ilnes.</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
