

**SDI Review Form 1.6**

Journal Name:	<a href="#">Advances in Research</a>
Manuscript Number:	Ms_AIR_35223
Title of the Manuscript:	General mathematical rules regulating the process of species accumulation during progressive sampling: the variations of the numbers of singletons, doubletons,..., x-tons with increasing sampling-size
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	<p>There are a small number of grammar and punctuation errors, author should review the entire article</p> <p>Author should explain how the the eq. (1) is simplified to the eq. (2) and check the typing of <math>C_{N,x}</math> formula</p>	
<b><u>Optional/General</u></b> comments	<p>The paper is interesting but there are so many similarities with the paper "On General Mathematical Constraints Applying to the Kinetics of Species Discovery during Progressive Sampling: Consequences on the Theoretical Expression of the Species Accumulation Curve"</p> <p>The author may use "We" instead of "I" in some parts of the paper</p>	

**Reviewer Details:**

Name:	<b><i>Süleyman Cengizci</i></b>
Department, University & Country	<b><i>Antalya Bilim University, Turkey</i></b>
