

**Editor's Comment:**

Following evaluation of all documents related to the manuscript I agree with the Reviewers that the manuscript is acceptable for publishing in Advances in Research. The manuscript is corrected with accordance of reviewer's suggestions. I recommend only changing some keywords because abbreviations should not be used without their explanation (RDF), and keywords should not be the same as words already used in the title (morphoframe manipulation). According to the journal requirements AUTHORS' CONTRIBUTIONS should be added.

My decision is Accept after minor correction.
