

Editor's Comment:

The authors have made the suggested modifications. Although there are two aspects that must be corrected in order for the work to be published. Once these modifications have been made, my editorial decision is favorable for its publication.

Line 61 is deviation.

Line 62. The values of Z are punctual. In such a way that the value of Z in the formula is 1.96 and not 2, with this modification the final result is 138 subjects, not 144 subjects
