

**Editor's Comment:**

I have read authors' answer as well as the revised manuscript.

As far as I could track comparing two manuscripts - authors changed some interview results. All this is up to the authors' responsibility and honesty.

I have some doubts about the results of the research and its credibility.

If other editors accept the manuscript, I will agree with a decision

After all the manuscript is not bad

**Editor's Details:**

Dr. Alyona Maksymets

Professor, Department of International Business Management, Ukrainian National Forestry University, Ukraine
