

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_42144
Title of the Manuscript:	Geochemical Characteristics of Six Formations Based on Organic Geochemical Parameters, Murzuq Basin, Libya
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	NONE	Appreciated
Minor REVISION comments	<p>All geologic formations should appear in capital letters (See Tanezzuft Formation (Line 7 of Introduction), Correct Rhuddanian hot "shall" to "Shale"</p> <p>I don't seem to make meaning out of the last sentence of paragraph 1 under Geological setting. Seems to be incomplete.</p> <p>Author should be consistent with referencing style (See figs 1 and 2) Also provide source of the template used in figs 4 and 5</p>	<ul style="list-style-type: none"> - Line 7 of Introduction <i>corrected</i> - Correct Rhuddanian hot "shall" to "Shale.... <i>corrected</i> - last sentence of paragraph 1 under Geological setting <i>adjusted and supported by Reference</i> - figs 4 and 5 <i>supported by Reference</i>
Optional/General comments	Author wish to attempt a depositional environment with available lithofacies data as this may explain some variations in the geochemical signatures.	Yes, it will next article <i>doing our best</i>
