**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The main problem of this manuscript is that there is no logical sequence of idea describing the topic. Sentence structure is not smooth and there are a lot of grammatical error. Authors also need to add statements in introduction section stating why there is a need of writing this paper and what is novelty of the topic?</p> <p>The current title does not reflect the contents of manuscript. I have suggested the new title. (please see the attached .pdf)</p>	
<b>Minor</b> REVISION comments	Please see the attached .pdf for the comments.	
<b>Optional/General</b> comments	I suggests authors to use english language editor for correct scientific english before submission.
