

SDI Review Form 1.6

Journal Name:	Journal of Economics, Management and Trade
Manuscript Number:	Ms_JEMT_41956
Title of the Manuscript:	Robust Estimators for estimation of population variance using non-conventional population Parameters.
Type of the Article	Original Research paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. In page 4 81th column, authors need to explain their estimator clearly; $\alpha=1$ (why?); What is the motive for their estimators?. 2. In page 5 85th – 86th columns, Authors also need to explain the condition of AMSie1. 3. In this paper, authors need to give the simulation to compare their estimator with other estimators. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. In the notations, the English style and the clarity of exposition need to improve, for example : (i) page 2 30th column, “ yi ” instead of “ Yi ”; (ii) page 2 44th – 45th columns, authors need to rewrite them; (iii) page 3 52th – 53th, 60th – 61th columns, “ what is lamda22? ”; (iv) page 5 87th and 94th columns, authors also need to explain it clearly; (v) page 7 Section 4, authors need to explain it clearly, etc.. 2. I suggest that authors also need a good proof-reading by a scientific writer. 3. Format of some references is not consistent, for example [1], [3], [4], [5], [7],[8]. 	
Optional/General comments	No.
