	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> This research is very good according with current situation, especialy in digital era. But we don't know why this reaserch shoul be done. What is the main problem whit the digital tourists in South Jakarta, is there any reasearch before? And what the difference whir previous research Method used unclear, there is no information what is observable variable, how to collect the data. Please use statistical inferentialanalysis to identify wthere any difference between gender and academic back ground? To identify the texbook used, please change the refence into serial number..[1], [2], [3]..... 	<ol style="list-style-type: none"> The reason why this study should be done is revised Method revised Reference revised
Minor REVISION comments	<ul style="list-style-type: none"> The data in line 26-36 and 40-42, with out source (?) Please describe Gen Y in line 72; do they have the same characteristic for the whole world ? Please describe the triangular method, why this method selected Please describe why 82.3 % of taveller in South Jakarta is small group, what the creteria of small group. Please identify wether the digital tourists in South Jakarta have the same motivation 	<ol style="list-style-type: none"> Triangular revised Small group explained Motivation is added
Optional/General comments	<ul style="list-style-type: none"> Discussion still only data based, what happen beyond the data has not been revealed.
