

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_42837
Title of the Manuscript:	Effect of Seed Coating Polymer and Micronutrients on Stomatal Conductance and Resistance at Different Growth Stages of Pigeonpea
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. I am not sure the relationship between seed coating and Stomatal conductance. Usually, the effect of seed coating for germinating of seed and vigour of seed. Please explained it. 2. Please check your Title. I don't see in your manuscript to explain about "polymer". What kind of polymer. 3. No statistical judgment to make conclusion. Only standard error of the mean. I am not sure your conclusion is valid. 4. Please find new references (minimum <5 years) for citing in your manuscript 5. Please make graphical results with standard error of the mean. It is easy to the reader your manuscript. 6. Lack of data of polymer substances in this experiment. <p>ethical issues: Add citation about seed coating polymer and their function relate to stomatal conductance</p>	
Minor REVISION comments	This manuscript can be publish but have to revised. Some information is good.	
Optional/General comments	Please adding some explanation about seed coating function in this manuscript. Revise your manuscript before publish.
