

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_45688
Title of the Manuscript:	STRENGTHENING OF TWO-WAY R.C SLABS USING LOWER CONCRETE LAYER REINFORCED BY FRP BARS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The subject of this paper is important to improve the structural performance of concrete structure. The presentation of paper is very good according to the experimental works and theoretical analysis. The results of analysis by using figures are very clear. Therefore, I think this paper has additional information about strengthening of concrete structure.	
Minor REVISION comments	This paper need to add some pictures about the specimens of tests	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
