

SDI Review Form 1.6

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_34370
Title of the Manuscript:	Effect of Cholesterol Reduction on Goat Milk Yoghurt Components by Cyclodextrin from Different Carbon Sources and Bacillus Spp
Type of the Article	Original research papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	This MS deal with the effect of cholesterol reduction on goat milk yoghurt components using cyclodextrin and <i>Bacillus spp.</i> Each cyclodextrin tested showed the reduction of cholesterol effectively. In particularly, the combination of the cyclodextrin from cassava starch 419 and <i>B. licheniformis</i> resulted with the lowest level of cholesterol concentration. These results indicate that it may be produce or develop the goat milk yoghurt with lower cholesterol content. It is desire to investigate the eating quality by sensory evaluation. From these reasons.	Yes, noted. That result will come in subsequent publication.
