

SDI Review Form 1.6

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_34529
Title of the Manuscript:	Gene encoding bacterial wilt related protein as a target for stress resistant transgenic plants
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In part Introduction. It is well you have specify the interest of the tomato and the research problem In part Materials and methods line 66: I don't see tomatoes contaminated by the disease to serve as a control The experimental device is not well defined line 69: It is necessary to specify culture conditions. The duration of stress?? line 71 SA Treatment??? composition In Part Discussion the interpretation of the results are mixed with Discussion and the statistics are not used In part Conclusion: The study concerns the reaction to bacterial disease or abiotic stress?!!	Line 66. Tomato varieties (resistant and medium resistant) were in control and treatment was with Salicylic Acid. Line 69. Duration of stress was for 1-3 days. Line 71. SA treatment. 1 mM in water is given. Discussion. Some points added with reduced references. Conclusion: Study is for bacterial stress (Conclusion is improved)
<u>Minor</u> REVISION comments	The manuscript needs to minor revision. The manuscript is well written, the study is original but doesn't correspond to the title	Title is changed according to manuscript.
<u>Optional/General</u> comments
