PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Total proteins instead of total protein Red blood corpuscles instead of Red blood cells	In response to the Reviewer's comment that total protein should be replaced with total proteins; I may not agree with this because after my consultation with text books it find out that it should be total protein and not total proteins. Secondly, Red blood cell is also correct although some text books do write it as Red blood corpuscles. However, this may not mean that Red blood cell is wrong. References: William F G(2001).
