PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I have found too much grammatical mistakes, also the format of introduction, materials and methods and result and discussion is too much weak.	Re-arrangements on the introduction have been made. Other inputs by the Reviewers have been rationally effected. The reviewers were not able to point out the too much grammatical errors in this paper. I therefore believe that this paper is grammatically sound.
Minor REVISION comments	AS above	
Optional/General comments
