| <b>Compulsory</b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      | <p>Very small silly mistakes have been done by the authors:</p> <ol style="list-style-type: none"> <li>1. Title : 'd' should be written in small caps as 'different'</li> <li>2. <i>B.licheniformis</i> – space between genus and species name in the whole text. (line no. 83....)</li> <li>3. use of word et al in the references with in the text is not uniform (some places it is written as et al., and others as et.al. see line no 25, 56, 60, 62...</li> <li>4.line no. 43: Bradel and Jir, 1989</li> <li>5. <i>Bacillus</i> is an scientific name. Mistake in the title and line no. 74, 222, 245, 257</li> <li>6. correct line no 73: The aims of this study are...</li> <li>7. Line no 94: mL (wrong it should be like ml)</li> <li>8. Line no 154 &amp; 155 : see the formula</li> <li>9. Line no 175: 1.5ml....</li> <li>10. Line no 209: name of bacteria should be in italics</li> <li>11. Line no 227: B. cerus</li> <li>12. Line no 263: non-fat</li> <li>13. Line no 267-274 : no text in these lines</li> <li>14. Use of colons after mentioning each table number as - Table 2:</li> <li>15. Line no 352 – use of word showed</li> <li>16. again line no 362-362 are missing</li> <li>17. Spp is the wrong way to write plural species, it should be like spp.</li> </ol> |                                                                                                                                                                               |
