| Journal Name:            | <a href="#">Asian Journal of Advances in Agricultural Research</a>                   |
| Manuscript Number:       | Ms_AJAAR_36272                                                                       |
| Title of the Manuscript: | Effect of different organic and inorganic mulches on the growth and yield of brinjal |
| Type of the Article      | Original Research Article                                                            |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
