PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Correct all grammatical and syntax errors especially in the abstract section. Write in one sentence at the end of the abstract, the significance of the study and recommendation.	
Minor REVISION comments	The materials and method section should be broken in to the following sub-headings: experimental materials, treatments and experimental design, data collection and data analysis. In the result section, LSD value is missing in the tables. In the discussion section, the in-text reference should be corrected for example Forlani, et al. 1991 should be Forlani, <i>et al.</i> 1991. Check and correct throughout the manuscript.	
Optional/General comments	Recommendation is missing, the section conclusion should be conclusion and recommendation.
