General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This manuscript is very interesting, since is a study for a new region in India. I think, it could be accepted for publication. However, it needs some corrections. Methodology needs to be fixed and results as well. Introduction needs to include why this study is important? (justification) and economic relevance of this region. Results need, to include data for PCR identification (maybe a table).	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
