

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Applied Chemistry Research
Manuscript Number:	Ms_AJACR_41594
Title of the Manuscript:	AMINO ACID PROFILE AND MINERAL CONTENT OF <i>BALANITES AEGYPTIACA</i> KERNEL
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The presentation of data in Table 4 is questionable. If the concentration of metals was given in mg/L and is the same in mg/g, what mass of the samples were mineralized? It must be given in the paragraph "Analysis of Mineral content of <i>Balanites aegyptiaca</i> Kernel"</p> <p>Add the table number in its header (4).</p> <p>Line 68: "5 minutes and" and not "5minutesand".</p>
