

SDI Review Form 1.6

Journal Name:	Asian Journal of Applied Chemistry Research
Manuscript Number:	Ms_AJACR_43339
Title of the Manuscript:	Development of stability indicating and robust Rp-HPLC method for determination of Teneligliptin
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Have to rewrite the abstract which better represent the work. 2. The objective of work should be more specific. The scientific papers were present which give information of teneligliptin stress studies. Require more emphasis on review of literature. 3. Author mentioned about system suitability studies, need clarity for what all parameters were considered. 4. The work was not concluded. Need to include conclusion section. 5. Need improve clarity of figures. 6. Need proper representation of summary table. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Avoid reparative explanation of work. Some eg: preparation of standard solution. Sample solution, e.tc., 2. Review the presentation of figures and their numbers. 3. Need to review language. 	
Optional/General comments	<ol style="list-style-type: none"> 1. Need to structure manuscript as per author guidelines of journal. 	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
