<u>Compulsory</u> REVISION comments	The manuscript provides important data on snail production in Nigeria including snail farmers age, education, access to credit, and also constraints limiting the snail production. The data are adequately presented and clear conclusions are recommendations are stated. The reader cannot know which number corresponds to any of the references listed in the reference list. 2/ Minor formal comments on English language and grammar and spelling mistakes: Abstract: Line 1: Insert a comma after the word "Nigeria" Line 6: Insert a space between the number and "years", i.e., "50 years", "30 years", etc. Line 12: Insert a comma before the word "respectively" Line 13: Correct the word form in "Enhanced farmers' access..." Manuscript: Line 24: Use the word form "belonging to the phylum Mollusca" instead of "belong" Line 32: There should be probably word "meat"
