SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Although the paper might be considered interesting at the present stage is not, according to my perspective, acceptable for publication because the references are rather old, which sharply limits the discussion. I suggest that the authors revise the paper, discussing their items with more up to date literature and submit the paper again. Indeed, as the paper has an interesting subject, if the authors comply with the above referred, the paper should be considered again for publication (after another review)	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
