SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The manuscript is very interesting and may bring some important data to academic debate. In my opinion, it can be published as it is. On the other hand, the manuscript can be improved with more detailed information about the local aquaculture (for example: main cultivated species, medium size of fish farms and the conversion rate of the local currency to the American dollar). Another interesting thing would be to insert a location map of the study area.	
<u>Optional/General</u> comments
