PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Title: could be more general. In fact the term "food security" is just an issue addressed in the paper. More general problems of agriculture are described and this can be clear in the title. Key words: add a few more like poverty reduction, China, Africa... Text: no comments, language and content appropriate	
<u>Optional/General</u> comments	Paper is very interesting and useful to wider scientific public. Elaborates and compares two large areas with similar and yet different rural problems and potential solutions for both of them.
