SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The writing on English should be carefully reviewed. Change goat rearing for goat production throughout the document. Introduction: Change goat species for goat breeds. All the information must be supported by a reference. Write the objectives as a paragraph not as a list. Results and discussion: Paragraphs are too long and the information is disorderly. Separate the information according to the table described. Some results are duplicated. E.g. lines 90 to 92 and lines 120 to 121. Table 6: What is PPR? Explained as footnote under the table. Why the Point 8. Lack of access to extension agents has an n=159. Citations that do not appear in the list of references: NPC, 2006. Kaduna State Government, 2008. World Bank, 2008. Anyanwu et al., 2012. Devendra , C. 1999., does not appear in the text. The discussion is very poor, should include more literature.	
<u>Minor</u> REVISION comments		

SDI Review Form 1.6

<u>Optional/General</u> comments	The manuscript has several errors in its structure and writing. Also given that the authors do not incorporate recent literature of other countries in their discussion, it has limited regional importance.
