SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. The sentence formation of the article overall is poor. Reframe the sentence. 2. The data related to Adoption and Non adoption is available, whereas the data pertaining to number respondents who continued to adopt and discontinued after adoption is lacking. Since , the study was carried out after six months of training. If the data is included it would improve the quality of article. 3. The reference quoted are no way related to the study and are outdated. There are many articles with respect to azolla adoption. Rogers reference is also missing. Try to add recent references. "Why Cultivation of Azolla as cattle feed not sustainable" written by me can be referred and cited. 4. Materials and methods and conclusion can be re written. Repetitions in the abstract and methodology can be avoided. 5. Tables can be simplified and presented in single table 6. Overall the paper has to be re written it doesn't come under review paper
