SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The abstract must be written in descriptive way not in objective way provided the instruction given in journal. Lot of correction needed in methodology eg. Paragraph 2 and 3 should not be the part of methodology In last paragraph of methodology referencing has been done without its need, The initial part of result and discussion (para 1-3) seems just information so add the valid calculations which have been done. The analysis part of Latent Classes lacks the reasons for the data obtained. There should be conclusion at last on the basis of study	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
