SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. The study is good for planning strategy in order to eliminate the decreasing of agricultural area, but merely analysis the tangible aspect such as residential areas, changes in identity of locations and changes in building architecture are not enough for suggesting the development of the village integrated planning strategy 2. Problem roots: Most tangible aspects are depend on intangible aspect such as people needs, people aspiration, government village development policies and other regulations, and therefore this study has identified the change in building expansion and building architecture but the problem roots, especially intangible matter, have not explored yet. The relation between the tangible and intangible aspects should be discussed that absent in this paper. 3. We doubted that GIS Arc Map 10.2 is able to identify effectively the architectural aspects such as the shape and type of building, building materials, and the number of floor	
<u>Minor</u> REVISION comments	The sentences construction needs to be improved, repetition should be avoided, identity of author in the study area should be omitted, the paper needs Discussion subheading, Table 1 (year not recorded), etc.	
<u>Optional/General</u> comments
