SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Sample size is not clear in sentence "A sample size of 400 participants was estimated to detect a 2% difference in nutritional status " Obviously, in sample size you wrote 400 while you explain in Table 1 used 826 so how many of sample size you used?	
<u>Minor</u> REVISION comments	Introduction : It cannot find clearly on food insecurity at Ondo state so it should more clarify food insecurity situation in this area. Methodology : adding to explain empirical model and review past researches for each variables that you use Data collection and analysis: In this sentence" Variables that had a <i>P</i>-value of <0.20 on the test of significance were entered into the logistic regression model" you should reference for it. In Table 1 you should more interpret what is the key point from Table 1,2,3? These results maybe preliminary classify food security condition for 2 areas so more explain to catch it. In Factors influencing household food security among respondents you should show robustness of your model before explaining each variable.
