SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The title of the manuscript, as well as much of the introduction, suggests to the reader that, when reading the paper, will know about an assessment of the availability, accessibility, and use of media channels as useful information (which teaches more efficient ways of working to farmers). However, the article only makes an assessment of the availability, accessibility, and use of media channels. Considering this, it is important that the authors rethink the scope of the work.	
<u>Minor</u> REVISION comments	English should be revised. If possible, update search sources.	
<u>Optional/General</u> comments	The chapter "Mass Media as a Source of Agricultural Information" could bring relevant information on how the media channels are bringing agricultural information to farmers as proposed. There is no need to explain the functioning of radio, television, internet, etc ..., once the reader, who will read the article probable have access to Internet and other media. I suggest reviewing and replacing superfluous information with really important information.
