Line 1- capitalize the key words in the title and put the botanical name of chickpea in the title. Remove the paragraph in the abstract, crosscheck word spacing, some words are jammed together in your write up. Do not put keywords in parenthesis. Line 26- check word spacing, what you stated as the botanical name of chickpea is not clear, present the genus and species name. Use the journal style in presenting reference within text. use journal style in presenting table. Recast all your tables. Remove line 88-89. The 'c' starting chickpea should be in uppercase form. Increase your reference list 20-25 minimum should be ok. Write more on the introduction, improve the results and discussion session, this session of your work is too shallow. Your work is a good one but the scholastics content needed to be improved. well done
