SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is a very interesting and informative paper. It provides some rich details about agricultural insurance. The weakness of the paper seems to have been failure by the authors to draw on existing body of knowledge to explain the study results and possible implications to theoretical advancement of knowledge. For this reason, I suggest the authors add a section that deals with the scholarly contributions of this paper, bearing in mind that the policy implications are adequately addressed.	Thank you for your valuable comments. We added scholarly contributions in conclusion part; "We summarize the contributions of this article into three ways" in line 393. Also please see line 78-80, 368-373 and 417-422.
<u>Minor</u> REVISION comments	A visual for the theoretical framework would assist the readers in envisioning the theoretical framework that underpins this research.	For envisioning the theoretical framework, we wrote additional explanation regarding theoretical part. Please see the line 129-131.
<u>Optional/General</u> comments	Overall, very interesting and informative.
