| <b><u>Compulsory</u></b> REVISION comments | <b>Results and discussion on training need is missing in the paper.</b> | We express our sincere thanks to the editor for finding the potential reviewers. Also, we are grateful to the reviewers for creative criticism and suggestions made on our manuscript. We value these suggestions and concerns raised and accordingly revised the manuscript. All the changes made in this manuscript have been highlighted throughout the text. Hope this revised manuscript would now meet the criteria of your esteemed journal.<br>We tried to cover your suggested missing points by adding an extra paragraph in the results and discussion portion along with a formula of training need index in the methodology portion. |
| <b><u>Minor</u></b> REVISION comments      |                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b><u>Optional/General</u></b> comments    | Good results.<br>But lacking major objective related to training need.  | Thank you for your appreciations. We are glad to hear that from you.<br>A separate full length paper on training needs/professional development for ATMA extension functionaries of Assam is being submitted in the same journal.                                                                                                                                                                                                                                                                                                                                                                                                                 |
