SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Language: Language needs improvement. There seems to be lack of cohesiveness in the language and sentence formation in several places of the paper. 2. Table 3.2 Following items need review Area under cultivation (item no.4), Organizational participation – nature and duration whether days/months/years and what nature ??? (item 10), and innovativeness whether time duration in days/months/years ??? (item 11) not clearly defined. Needs clarification.	1. We have tried to improve the language as much as possible. 2. We have made the correction and explanation in the mentioned table.
Minor REVISION comments	1. Regression analysis Since the regression analysis has been done, the regression equation may be added into the paper to improve the value of the paper	1. A regression line has been inserted in the materials and methods chapter.
Optional/General comments	The paper is well thought out and timely one in the context of study area. The aim and objectives of the paper are well explained. The paper attempts to elucidate various farm and farmer characteristics as well as some of the factors that influence the motivation for sunflower cultivation. The approach and methodology may give a detailed account on why these characteristics were chosen. The paper has applied all possible statistical tools to draw inference which is heartening. The results and discussions may be explained in simple statements (Language correction).
